VIRTUAL EVENTS
PACKAGED OPTIONS

Conference Technologies, Inc. is here to offer you our expertise, along with a wide range of packaged options to help you build and execute the perfect virtual event. From personalized web design and registration, on-site production, virtual and in-person studio setups, to endless creative options and add-ons, CTI has all of the pieces for executing a seamless event that your team and your audience will remember.

We will help you select the best platform and package for your event and make sure that it covers all of your needs and wants. Along with developing and designing a virtual experience that delivers the user-friendly navigation and audience engagement that you and your attendees are looking for.

Below you will find three tiers of virtual event packages, along with a list of add-on items CTI offers to help enhance your event.
