

MASS NOTIFICATION SOLUTIONS FOR ALYSSA'S LAW

Powered by CTI

DETECT THREATS

Leverage silent panic buttons to quickly initiate alerts during active assailant or emergency situations, helping protect students and staff.

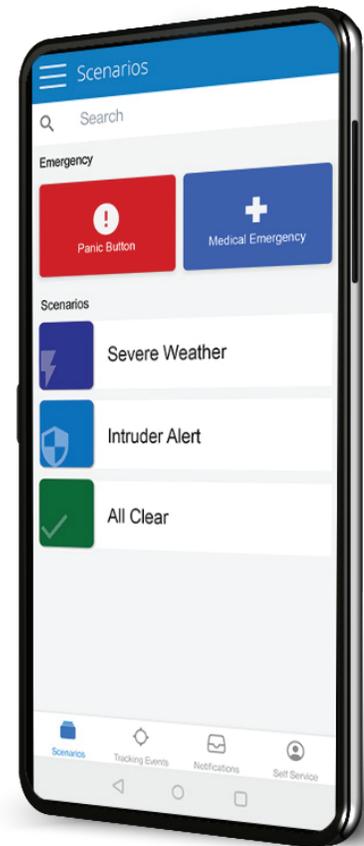

NOTIFY EVERYONE

Deliver text, audio, and visual notifications across campus systems and directly to emergency response teams.

MANAGE INCIDENTS

Gain real-time visibility and coordinate response efforts with safety teams and first responders to manage incidents effectively.

CTI provides integrated mass notification and incident management solutions that help schools and districts meet the requirements of Alyssa's Law. Our solutions enable silent panic buttons that instantly alert emergency responders and the Public Safety Answering Point (PSAP) with critical incident information. This ensures faster awareness, quicker response times, and improved safety for students, staff, and first responders.

Meet Alyssa's Law Requirements

PANIC BUTTONS

Use mobile apps, wearable devices, or desktop shortcuts to request immediate emergency assistance.

ACTIVE SHOOTER SAFETY

Integrate with gunshot detection and safety systems to trigger alerts, notifications, and lockdown procedures.

INCIDENT MANAGEMENT

Manage emergencies using real-time insights, centralized controls, and flexible communication tools.

PAGING

Send audio alerts to phones, speakers, and existing analog or IP paging systems.

911 ALERTING

Automatically initiate notifications when 911 is dialed and share critical details with the PSAP.

EMERGENCY NOTIFICATION

Notify everyone using text, audio, and visual alerts delivered to on-site and mobile devices.

DESKTOP NOTIFICATION

Deliver alerts directly to desktops through network-based or cloud-based notifications.

BELL SYSTEMS

Automate bell schedules for classes, shift changes, and campus-wide announcements.

Contact CTI to discuss integrated safety and incident response solutions tailored to your school.
